Press Release

25th of February 2010

Roberts Europe selected as TRW Automotive's European logistics provider

Maastricht-Airport (NL) – **Roberts Europe has been selected by leading global automotive supplier to manage Premium Freight for TRW's production facilities in 12 European countries.**

"With 74 plants across 12 countries, we needed a partner to support us internationally, but with a focus on local relationships to ensure that we provide excellent logistics service to our vehicle manufacturer customers. Roberts' international sales organization and operational network met our requirements", says Helge Wöbke (Head of Logistics EMEA & AP at TRW Automotive).

Roberts Europe sees its strategy, with which it started in 2005, once more confirmed to be the right one through this cooperation. The international account management team has created the right circumstances to support large organizations in optimizing their premium freight spent and improve their efficiency.

Roberts Europe is committed to manage this partnership to support both organisations in achieving their company goals.

The Dutch Forwarding Conditions, latest version, including the arbitration clause, filed by FENEX with the court registry (registries) at the District Court(s) in Amsterdam (Rotterdam, Breda and Arnhem), are applicable to all our activities. These conditions will be supplied upon request.

About Roberts Europe

Roberts Europe is a Pan European Premium Freight specialist, active in the market since 1990. It offers its customers tailored road / air solutions through an international network of contracted carriers. Roberts Europe is headquartered at Maastricht-Aachen Airport and has subsidiaries in Poland, Portugal and support offices in Hungary and Romania.

About TRW

With 2008 sales of \$15.0 billion, TRW Automotive ranks among the world's leading automotive suppliers. Headquartered in Livonia, Michigan, USA, the Company, through its subsidiaries, operates in 26 countries and employs approximately 64,000 people worldwide. TRW Automotive products include integrated vehicle control and driver assist systems, braking systems, steering systems, suspension systems, occupant safety systems (seat belts and airbags), electronics, engine components, fastening systems and aftermarket replacement parts and services. All references to "TRW Automotive", "TRW" or the "Company" in this press release refer to TRW Automotive Holdings Corp. and its subsidiaries, unless otherwise indicated.
